

Global Manufacturing- Steel EMT Offset Connectors

Features

Our Global Manufacturing line of Steel EMT Offset Connectors are similar to conventional EMT fittings both using either set-screw or compression rings to secure EMT piping. This fitting allows you to connect flex conduit to piping at various sizes. EMT Connectors are used to connect two EMT pipes together, or to connect an EMT pipe and a Rigid Pipe together. The advantage with this piece is that it allows you to connect the piping at an offset. Global Manufacturing offers its Steel EMT Offset Connectors from sizes of 1/2" to 1".

Sizing and Features

Product	Size	Product Description	Box Qty	Sizes		
				A	B	C
G-OC50	1/2"	EMT Offset Connector	20	2.10	.94	.52
G-OC75	3/4"	EMT Offset Connector	10	3.00	1.16	.52
G-OC100	1"	EMT Offset Connector	10	3.16	1.42	.67
